

**PREKYBOS  
FORUMAS  
2014**

**Supplier – Retailer collaboration  
opportunities for supply chain efficiency  
and growing consumer value.**

Vilnius, 4.03.2014  
Edgars Pentjuss, ECR Baltic

# Industry (FMCG – Food/Near food): touching people lives every day.

## Food Expenditures (%)

Q3. How much of the family's monthly income you spend on food purchase per month?

**More than a half of Baltic residents spend up to 50% of monthly income on food.**

In LV and EE less is spent by office employees, while in LT – by men and residents with high income. There is a clear tendency – the lower the income, the bigger part of it is spent on basic needs and first necessity goods, incl. food.

Source: GfK CR Baltic conducted an online survey in Autumn 2013, among population 18-65 years  
Data are weighed by gender, age, nationality, region and settlement type

**Efficient Consumer Response  
initiative fundamental believe is  
that manufacturers and retailers  
can work together for the benefit of  
consumer!**

# Principles of Efficient Consumer Response:

## ECR Baltic members (2013):

Supported by

## Our mission

Promote the development & adoption of better practices for joint retailer/supplier initiatives. We encourage active and voluntary **collaboration on non-competitive matters** between all involved parties.

## Our vision

Companies along the consumer goods value chain are “**working together to fulfil consumer wishes better, faster, at less cost and in a sustainable way.**”

# Where we see supplier-retailer collaboration opportunities in?

- compliance to fair business practices;
- standardization and unification initiatives;
- connected business information;
- driving supply chain efficiencies and cutting unnecessary costs;
- consumer and shopper focus;
- sustainability improvements;
- people development

# Compliance to fair business practices:

Current situation:	Opportunities:
<ul style="list-style-type: none"> <li>- <b>unfair business practices in B2B commercial dealings.</b></li> <li>- <b>Different National regulations in place already:</b> On prohibition of unfair trading practices for food chain and near food companies in Lithuania and soon to be approved in Latvia, Estonia seems to support «self regulation way»;</li> <li>- <b>New EU regulation?</b> The Industry is challenged on EU regulation level against fair trade in food supply chain.</li> </ul>	<ul style="list-style-type: none"> <li>- <b>for Industry associations:</b> Establish a dialogue between stakeholder organizations and build national/regional platforms around <a href="http://www.supplychaininitiative.eu">www.supplychaininitiative.eu</a> code (Founders: Eurocommerce, AIM, FoodDrinkEurope, others)</li> <li>- <b>for companies signing under the code means ensuring fair trade and fast, cost effective dispute solving.</b> (Already signed: ICA, Lidl, Rewe, Multinational manufacturers).</li> </ul> <div data-bbox="1039 1139 1352 1219">  </div>

# Standardization and unification initiatives for pallets

Current situation:	Opportunities:
<ul style="list-style-type: none"> <li>- <b>Pallets</b> and RTIs returnable packaging (crates) are «<b>nuts and bolts</b>» of Supply Chain.</li> </ul>	<ul style="list-style-type: none"> <li>- Do not ignore pallets costs and its management related costs;</li> </ul>

Open pool for EPAL and single brand EUR pallets

Renting pallets from pooling companies

One way pallets

Plastic pallets pooling in the future.

# Standardization and unification initiatives: RTIs\*:

Current situation:	Opportunities:
<ul style="list-style-type: none"><li>- Historically we have more than 100 different types of <b>returnable plastic crates</b> in Baltics which is as a huge pressure on costs of our supply chain.</li></ul>	<ul style="list-style-type: none"><li>- Join unification and pooling initiative of RTIs in Dairy, Fresh Fruits and Vegetables, Meat and Bakery.</li></ul>

*\*RTI – by definition reusable transit item*

40 years Retailer-Supplier  
standardization and  
innovation success story:

According to PwC research, without Auto ID (barcode - EAN numbers) introduction at POS, the consumer prices of products would have more than doubled by now!

# Standardization and unification initiatives in product information:

Current situation:	Opportunities:
<ul style="list-style-type: none"> <li>- <b>Low quality and non-standardized master data (products logistic information) with trading partners.</b> Retailers do not trust suppliers product information, have to re-measure; Suppliers have to manage different excel sheets, data formats and requirements of various retailers;</li> </ul>	<ul style="list-style-type: none"> <li>- <b>Baltic Data pool (s) introduction</b> for quality and up to date product information maintenance and synchronization between trading partners.</li> <li>- Jointly agreed products item master data requirements (<b>one master data set valid for all retailers</b>).</li> </ul>
<ul style="list-style-type: none"> <li>- <b>Requirements of B2C product (nutrition)</b> information according to EU directive <b>1169/2011</b> on the provision of food information to consumers from 13.12.2014</li> </ul>	<ul style="list-style-type: none"> <li>- Ensure product digital and information on packaging compliance with the directive and what happens when you change a bit in product recipe?</li> </ul>

# Connected business information (Electronic Data Interchange):

**1. Product and Party  
Masterdata.** EDI name:  
PRICAT, PARTIN (Data Poc ..)

# Driving supply chain efficiencies and cutting unnecessary costs

Current situation:	Opportunities:
<ul style="list-style-type: none"> <li>- <b>Efficient replenishment and EDI (mainly electronic orders some invoices).</b> Baltic advanced level 4doc model: Order – Dispatch advise – Receipt advise – Invoice.</li> </ul>	<ul style="list-style-type: none"> <li>- Target full replenishment process automation from Order to Cash;</li> <li>- Align retail e-invoice requirements</li> <li>- Dispatch advise with corresponding synchronized logistic label</li> <li>- Tax compliant e-invoices</li> </ul>
<ul style="list-style-type: none"> <li>- <b>Shared logistics, transport, warehousing, waste management</b> Historically companies prefer to own transport means, auxiliary equipment and control all the processes (lead to overcapacity, tied capital, transporting air).</li> </ul>	<ul style="list-style-type: none"> <li>- Examine shared resources opportunities «You do not compete at the back of the lorry but on the shelves.»</li> <li>- ECR National Initiatives work on central database for sharing and pooling business cases</li> </ul>

# Consumer and shopper focus

Current situation:	Opportunities:
<ul style="list-style-type: none"><li>- <b>Category management (CM)</b> process well established between major retailers and suppliers.</li></ul>	<ul style="list-style-type: none"><li>- Benchmark your Category and Shopper marketing maturity.</li><li>- Apply new technics: shopper journey framework (path to purchase)</li><li>- Still lacking basic knowledge and trust</li></ul>
<ul style="list-style-type: none"><li>- <b>Shopper insights and information sharing: Big data, Data Sharing.</b></li></ul>	<ul style="list-style-type: none"><li>- Merging trends: the space race is over the digital race is on!</li></ul>

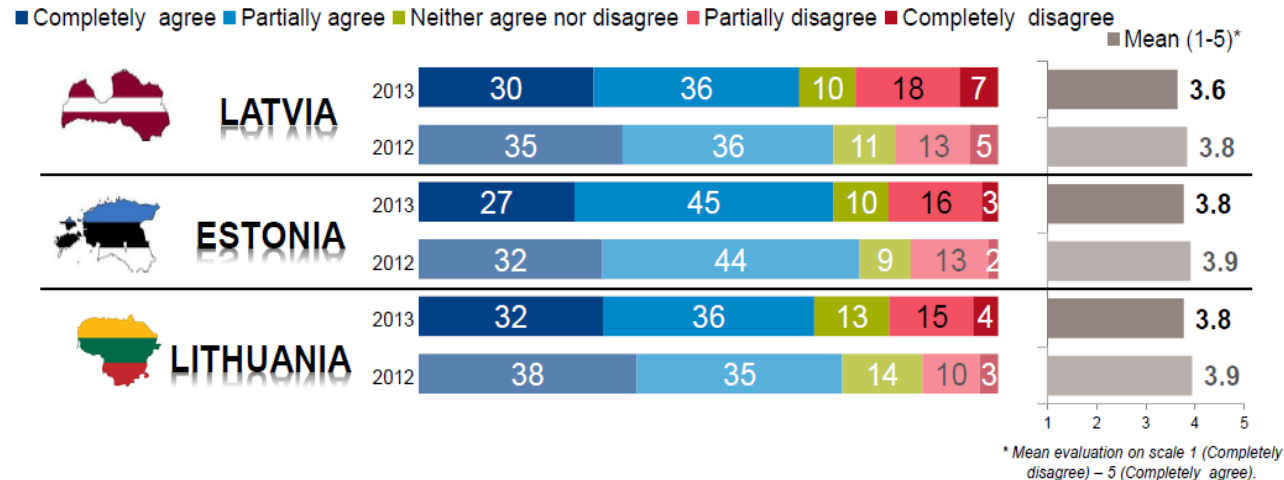

# Sustainability improvements: 1 out 4 shopping bags goes in waste

"I buy just as much food as I need and do not throw away anything"

Q8. To what extent do you agree with the following statements?

Base: All respondents; [Latvia, n(2013)=814, n(2012)=1016; Estonia, n(2013)=849, n(2012)=1021; Lithuania, n(2013)=877, n(2012)=784]

LETA BIZNESA PORTALS

**Food Waste is a huge economic cost to companies and cost to the environment and society at large.**

- 90m tones of food is wasted in the EU.
- 39% of this is through food production, 14% Foodservice, 5% Retail and 42% through Households. source EU Commission.

# People development

Current situation:	Opportunities:
<ul style="list-style-type: none"> <li>- <b>The FMCG and Retail as an Industry falls behind other Industries (Telecoms/IT, Finance) in popularity for graduates and career opportunities.</b></li> <li>- <b>Youth unemployment</b></li> </ul>	<ul style="list-style-type: none"> <li>- Promote the Industry to graduates and actualize Industry research topics with Academic partners;</li> <li>- Feeding Britain's, Irelands future program success story to deliver the first working skills and attract talents to the Industry</li> </ul>
<ul style="list-style-type: none"> <li>- <b>the gap in knowledge between local and multinational companies how to operate in modern retail environment.</b></li> <li>- <b>Do you understand what your trading partners needs are?</b></li> </ul>	<ul style="list-style-type: none"> <li>- Training and education incentives, resources of best practices.</li> <li>- Job swap example</li> </ul>
